

## Adoptable Dog: DAISY

Hi, my name is Daisy. I am a Labrador Retriever x Australian Shepherd mix and I joined PawPADs from Midwest Animal Rescue after making the long trip from Missouri to Minnesota in Fall, 2022! I spent Spring semester in the ADEPT college program and I gave it my all, but being a service dog isn't my thing! I know basic cues such as sit, down, wait, leave it, retrievals, get your leash, etc.

I recently turned one year old and people tell me that I am the cutest girl they've ever seen. Everyone thinks it's really funny when I "sploot" and lay like a frog – I just think it's comfy! Oh, and I love to snuggle!

I'm healthy, spayed, up to date on vaccinations, microchipped and housebroken. I love playing with toys and chewing on bones.

I love having "my person", and I bond deeply, so I get a little sad when my person leaves me to go somewhere. I get more comfortable by myself when I have a consistent routine.

### **More about Daisy from her hoomans:**

Daisy is specifically being released from our program due to her lack of comfort out in public and lack of flexibility. She has a little bit of "stranger danger" and will bark at, or be nervous with, new people. She does, however, bond very hard to "her person". She's a very smart girl but nervous in new situations.

Unfortunately, these characteristics don't work for a service dog as they must be very comfortable with a variety of people in all situations and be able to handle novel situations with a "go with the flow" attitude.

She met cats once and did well but still has minimal experience with them.

She's still maturing and going through some developmental phases – we feel that she will thrive in a less challenging and busy environment where she can have a consistent relationship with her new family and have all the love, attention, and patience that she deserves.

If you are interested in adopting sweet Daisy, please check out the Career Change/Release Dog section of the website ([www.PawPADs.org](http://www.PawPADs.org)). A "Release Dog Application", as well as additional information, can also be found there.

Daisy's Adoption Fee: \$500
